## LISBON STREET PHOTOGRAPHY WORKSHOP

Autumn 2022

Lisbon is a cosmopolitan, multiculturally layered city with a metropolitan population of around 3 million residents. One of the oldest cities in Western Europe, pre-dating the Roman era, it is loud and crowded with hidden corners of absolute silence right in the middle of the city.

It is a safe city that will, however, confront you with the good and bad of human interaction.

The workshop is aimed at intermediate photographers who wish to improve their Street Photography and participate in a constructive environment as well as explore the city and enjoy the local life. Participants must have a good knowledge of their camera and be able to shoot in full manual mode.

While enjoying the city and its many offers, photographers will be taken through several exercises that will allow them to explore composition in new ways and also overcome the common fear of public shooting and pointing the camera at a stranger.

The images will be shared among participants, who will collaborate in reviewing them and finding possible improvements in their photography.

Before the workshop, students receive a set of guidelines regarding the city, gear and tips as well as several inspirational links to introduce them to some of the best and most current street photographers.

Flight and accommodation is not included and students must organize together.
