PORTRAIT WORKSHOP

Spring 2019

Ideal for enthusiast photographers, this hands-on workshop aims to give students the technical photographic tools to better control their results along with tips and tricks to make them and their subjects comfortable in their roles. The course is centred around mixed theory and practice where every technique learned is workshoped in the second half of the class. After an introduction to standard lighting setups students learn how to identify patterns in natural light helping them to better compose their image. The course also approaches non conventional techniques and tricks used by editorial photographers "on the go" to further enlarge participants' overview of the art and increase their range of technical and creative solutions when approaching a subject in a candid situation. The course's main goal is to help students improve their technique and their ability to improvise without the need for expensive studio equipment.

.....
Certificate: Students with 70% attendance are eligible for a skills certification diploma.
.....

- . 8H (2 hours x 4 lessons)
