BEGINNERS WORKSHOP

Autumn 2018

The beginners course focuses on giving starting photographers and enthusiasts full control over their images. Whether the technical or the more intuitive side of the photographic process, students are given the necessary practical and theoretical tools to fully decide and control what their image will look like.

Exposure, shutter speed, aperture, composition and white balance are some of the topics that will enable participants to further develop their skills and love for Photography.

The course is aimed at beginner photographers and enthusiasts that wish to fully manually control their cameras by truly understanding the photographic process. The course has a hands-on approach and students will be asked to bring their cameras to class.

The more you shoot the more you learn.

.....
Certificate: Students with 70% attendance are eligible for a skills certification diploma.
.....
