STREET PHOTOGRAPHY WORKSHOP Autumn 2018

The course starts with a lesson in street photography history, getting to know the masters and the techniques this craft involves. During the outings participants will be guided through several exercises, helping them understand and experience different approaches to street photography.

Followed by review session, students will, with the help of the teacher, review each others images, find patterns in each others approach and suggest improvements for future outings.

The main goal of the course is for photographers to find their "language" in the medium whilst helping them conquer the first challenge in street photography; pointing the camera at a stranger.

.....
Certificate: Students with 70% attendance are eligible for a skills certification diploma.
